

HORECA PORTFOLIO

COFFEE BEANS

ENZO BENCINI

Enzo Bencini is a new range of coffees. Forza di Bencini and Momento di Bencini are to be used especially for classic preparation. They are traditional Italian blends based on balanced proportion of arabica and robusta. Prima di Bencini contains more caffeine due to higher contents of robusta and therefore it is suitable for breakfasts served in hotels. Cost-effective Rapido di Bencini is primarily intended for vending.

INSTANT COFFEE

ENZO BENCINI STACCATO

Enzo Bencini Staccato is premium quality instant coffee suitable for all types of drink vending machines. It is made by use of gentle freeze-drying technology which retains the coffee's full flavour and aroma. Coffee produced in this way is ideal for use in vending machines namely due to its precise dosing.

HOT CHOCOLATES

Name	Packaging	Packaging in carton	Ctn / plt	Expiration (months)
ENZO BENCINI Dark cao drink	20 pcs / box	12 boxes	45	18
ENZO BENCINI White drink	20 pcs / box	12 boxes	45	18
ENZO BENCINI Mild cao drink	20 pcs / box	12 boxes	45	18
ENZO BENCINI Delight Dark	640 g	15	72	18

Recommended preparation

Pour 150 ml of hot milk (water) over the contents of the bag and stir thoroughly with a whisk until you get a delicious drink of creamy consistency.

Preparation in a chocolate maker: Empty 1 package contents (640 g) into a container filled up with 3 l of milk and mix thoroughly. Always drop the mixture into milk (water), do not pour milk (water) into the mixture. Set the thermostat to maximum temperature and start up the rotation of blades. After 10 minutes lower the temperature of the thermostat to 60°C. Wait until the drink cools down to 50-60°C.

Recommended preparation technology:

Chocolate maker Ugolini Delice

- Easy operation
- 2 thermostats allow perfect regulation of the drink temperature
- The container can also be removed with its contents
- Comfortable dispensing of drinks
- Easy maintenance
- Attractive design
- Small dimensions of the device

ICE CRUSHES

AGIBERIA ICY FRUITY

Agiberia Icy Fruity are original blends intended for preparation of crushed ice drinks. Excellent flavour, aroma, and stability of the crushed ice colour during the whole preparation and dispensing time only prove the highest possible quality. Great advantage of this product compared to most of the competitive ones is the simplicity of its preparation – the blend does not have to be mixed with sugar.

AGIBERIA Icy Fruity Mango flavour <i>limited edition</i>	1000 g	10	72	15
AGIBERIA Icy Fruity Cactus flavour <i>limited edition</i>	1000 g	10	72	15

Recommended preparation

Thoroughly stir 1 000 g of mixture (no need to add sugar) in 6 litres of cold drinking water and pour into the crushed ice maker. The crushed ice is made in approximately one hour, depending on the device setting. Once the mixture preparation in the crushed ice maker is ready, you will get about 8 litres of the final product in the selected flavour.

ICE CREAMS

AGIBERIA ICE CREAM

Agiberia Ice Cream is a summer evergreen. This mixture available in the most popular flavours is intended for use in soft ice cream makers. The ice cream colours and tastes allow creative combinations of different mixed ice creams.

Agiberia

- Agiberia Ice Cream vanilla flavour (ID 28931)
- Agiberia Ice Cream chocolate flavour (ID 28935)
- Agiberia Ice Cream pistachio flavour (ID 28936)
- Agiberia Ice Cream salty caramel flavour (ID 28937)

ICE CREAMS

Name	Packaging	Packaging in carton	Ctn / plt	Expiration (months)
Agiberia Ice Cream vanilla flavour	1000 g	10	54	12
Agiberia Ice Cream chocolate flavour	1000 g	10	54	12
Agiberia Ice Cream pistachio flavour	1000 g	10	54	12
Agiberia Ice Cream salty caramel flavour	1000 g	10	54	12

Recommended preparation

Empty the contents of the bag (1 000 g) into 2 litres of cold drinking water and stir it with a whisk. Let it stand for at least 15 minutes and then slightly mix again, afterwards pour the mixture into the soft ice cream maker. The density of the ice cream depends on the soft ice cream maker setting.

DRINK WITH FRUIT CONTENTS

AGIBERIA FRUIT DRINKS

Range of refreshing drinks with fruit and vegetable juices. These drinks do not contain any artificial sweeteners, colouring agents, or preservatives. After stirring the mixture in cold water, you get a perfect solution for the drinking regime suitable for both children and adults.

TECHNOLOGY

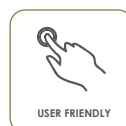

COOLBAR AND HOTBAR

Biogena Coolbar and Hotbar represent ideal solution for preparation and dispensing of both cold and hot drinks. The design is adapted for the connection of drinking water pipe system. Mixing water and fruit concentrate or syrup (from Bag in Box packaging) in the mixing head creates a delicious drink which either refreshes or warms up.

PROTECTIVE DRINKS

VITAMAXIMA STRONG

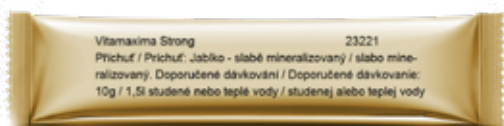

Vitamaxima Strong is a protective drink enriched with minerals. It has a delicious flavour and suits perfectly for drinking regime of working people exerting increased workload and performance. Protective drinks are intended to compensate for the loss of at least 70% liquids and minerals to employees working in an 8-hour shift and being exposed to heat. Protective drinks are also suitable for those who are exposed to cold conditions.

vitamaxima

PERFORMANCE

- Grapefruit (ID 23220)

CUPS AND ACCESSORIES

CUPS

Additional assortment constitutes an essential part of the entire offer to HORECA establishments. AG FOODS is dedicated to this specific area and is highly aware of the fact that even a high-quality drink served in “packaging” of insufficient quality is not the right way how to approach the customer. We are following the latest trends and regularly update our range by leading novelties.
