## Coffee beans

### Enzo Bencini Rapido di Bencini

The meaning of “rapido” in Italian stands for fast, energetic, and agile. Do you need a quick start? Then don't lose your time. A sip of Rapido will slow down everything around you. High contents of Robusta in this blend will make you energized. Drink this coffee when you are busy and need to speed up even more.

### Enzo Bencini Prima di Bencini

The meaning of “prima” in Italian stands for first. We believe that the way you start up your day is meaningful for you. Prima is the best decision you can make when thinking about your breakfast. Enjoy the perfect blend of Arabica and Robusta and get your day started. Drink this coffee preferably in the morning and enjoy it together with a fresh newspaper and plenty of time.

## Instant coffees

### Enzo Bencini Staccato

This premium quality instant coffee is suitable for all types of vending machines. It is made by use of gentle freeze-drying technology which retains the coffee's full flavour and aroma. Coffee produced in this way is ideal for use in vending machines namely due to its precise dosing.

### Enzo Bencini Brioso

Thanks to the technology of freeze-drying the coffee preserves its higher quality. Brioso is a great solution for operators who prefer modern and simple coffee.

### Enzo Bencini Allegro

The spray-drying method of carefully selected coffee beans enriches Allegro with thick foam and excellent aroma. This coffee is popular thanks to its typical flavour and balanced price-quality ratio.

### Enzo Bencini Andante

This instant coffee is popular namely due to its distinctive taste properties and rich foam. It is produced by use of agglomeration process from thoroughly selected Robusta coffee beans.

### Enzo Bencini Terra Verde

This high-quality instant coffee complies with the conditions of Rainforest Alliance certification. The coffee is made by use of freeze-drying technology which preserves its full flavour and aroma. The Rainforest Alliance certification proves that the coffee is grown, harvested, and processed with respect to the environment and supports improvement of working conditions for farmers and their families.
